• *Table of Nonhazardous Ingredients* CAS: 7647-01-0 Hydrochloric Acid

Aay cause drowsiness or dizziness. (Conto	d. of page 1)
Precautionary statements	
Keep away from heat/sparks/open flames/hot surfaces No smoking.	
Ground/bond container and receiving equipment.	
Jse explosion-proof electrical/ventilating/lighting/equipment.	
Jse only non-sparking tools.	
Take precautionary measures against static discharge.	
Do not breathe dusts or mists.	
Vash thoroughly after handling.	
Jse only outdoors or in a well-ventilated area.	
Vear protective gloves/protective clothing/eye protection/face protection.	
f swallowed: Rinse mouth. Do NOT induce vomiting.	
f on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.	
F INHALED: Remove person to fresh air and keep comfortable for breathing.	
f in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and ec	asy to do
Continue rinsing.	<i>isy io uo</i> .
mmediately call a poison center/doctor.	
Specific treatment (see on this label).	
Vash contaminated clothing before reuse.	
n case of fire: Use CO2, powder or water spray to extinguish.	
<i>Yore in a well-ventilated place. Keep container tightly closed.</i>	
Store in a well-ventilated place. Keep cool.	
Tore locked up.	
Dispose of contents/container in accordance with local/regional/national/international regulations.	
Classification system:	
NFPA ratings (scale 0 - 4)	
Health = 3	
Fire = $3$

#### 4 First-aid measures

- · Description of first aid measures
- · General information: Immediately remove any clothing soiled by the product.
- After inhalation: In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: Drink copious amounts of water and provide fresh air. Immediately call a doctor.
- Information for doctor:
- · Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

#### **5** *Fire-fighting measures*

- · Extinguishing media
- Suitable extinguishing agents:
- CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- Special hazards arising from the substance or mixture During heating or in case of fire poisonous gases are produced.
- · Advice for firefighters
- Protective equipment: Mouth respiratory protective device.

#### 6 Accidental release measures

• <b>Personal precautions, protective equipment and emergency procedures</b> Mount respiratory protective device.		
Wear protective equipment. Keep unprotected persons away.		
• Environmental precautions:		
Dilute with plenty of water.		
Do not allow to enter sewers/ surface or ground water.		
• Methods and material for containment and cleaning up:		
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).		
Use neutralizing agent.		
Dispose contaminated material as waste according to section 13.		
Ensure adequate ventilation.		
· Reference to other sections		
See Section 7 for information on safe handling.		
See Section 8 for information on personal protection equipment.		
See Section 3 for disposal information.		
· Protective Action Criteria for Chemicals		
• PAC-1:		
CAS: 67-63-0 Isopropanol	400 ppm	
CAS: 7647-01-0 Hydrochloric Acid	1.8 ppm	
CAS: 115-39-9 Bromophenol Blue	30 mg/m <sup>3</sup>	
· PAC-2:

· PAC-3:		
CAS: 67-63-0	Isopropanol	12000** ppm
CAS: 7647-01-0	Hydrochloric Acid	100 ppm
CAS: 115-39-9	Bromophenol Blue	$2,000 mg/m^3$

#### 7 Handling and storage

#### · Handling:

- Precautions for safe handling Ensure good ventilation/exhaustion at the workplace.
   Prevent formation of aerosols.
   Information about protection against explosions and fires:
- Keep ignition about protection against explosions and fire Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Keep respiratory protective device available.
- $\cdot$  Conditions for safe storage, including any incompatibilities
- · Storage:
- Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed.
  Store in cool, dry conditions in well sealed receptacles.
  Specific end use(s) No further relevant information available.

## 8 Exposure controls/personal protection

• Additional information about design of technical systems: No further data; see section 7.

· Exposure controls

Reviewed on 12/22/2023

#### Trade name: 0.05N Hydrochlorination Reagent

(Contd. of page 4)

- Personal protective equipment:
  General protective and hygienic measures: Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes. Avoid contact with the eyes and skin.
- · Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

· Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation • Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

• Eye protection:

Tightly sealed goggles

· Body protection: Protective work clothing

## **10 Stability and reactivity**

· Reactivity No further relevant information available.

· Chemical stability

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · Possibility of hazardous reactions No dangerous reactions known.

· Conditions to avoid No further relevant information available.

- · Incompatible materials: No further relevant information available.
- · Hazardous decomposition products: No dangerous decomposition products known.

#### **11** Toxicological information

- · Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:

• on the skin: Strong caustic effect on skin and mucous membranes.

3

• on the eye: Strong caustic effect.

Strong irritant with the danger of severe eye injury.

• Sensitization: No sensitizing effects known.

· Additional toxicological information:

*The product shows the following dangers according to internally approved calculation methods for preparations: Corrosive* 

Irritant

Swallowing will lead to a strong caustic effect on mouth and throat and to the danger of perforation of esophagus and stomach.

· Carcinogenic categories

· IARC (International Agency for Research on Cancer)

CAS: 67-63-0 Isopropanol

· NTP (National Toxicology Program)

None of the ingredients is listed.

#### · OSHA-Ca (Occupational Safety & Health Administration)

None of the ingredients is listed.

#### **12** Ecological information

· Toxicity

- Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behavior in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- Additional ecological information:

· General notes:

Water hazard class 1 (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system. Must not reach bodies of water or drainage ditch undiluted or unneutralized.

Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pH-values. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

#### **13 Disposal considerations**

- · Waste treatment methods
- · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- Recommendation: Disposal must be made according to official regulations.
